

Reconnective Healing Practitioner Review, Individual Mentoring and Pre-Exam Mentoring FAQ

What does the Practitioner Review consist of?

The Level 1-3 Practice Review is meant to review ALL aspects of the Level 1-2 & 3 Reconnective Healing® Seminars. Everything from Feel for it, Find it, Stretch it to Line 17. The Philosophy and history of the work will be covered. Fair Financial exchange and how to market your practice will be discussed. Protocols for doing public events, speaking and demonstrations will be reviewed. The process of doing The Reconnection® will be exhaustively reviewed.

How long does it take?

The review typically takes 3 hours. For larger groups I may add some additional time if necessary.

What are the class requirements?

You must have successfully completed your Level 1-2 Seminar and attended your Level III seminar even if you did not pass. It is recommended that if you need remedial mentoring to pass level III, you can attend one of my review classes but a one on one mentoring session(s) may be better for you. The group sessions are targeted towards individuals who successfully completed their Level III training and want to get sharper or maintain their mastery.

Does my participation get me “Certified”?

No... the review class prepares you for your certification exam. Sadly, like so many teachers today, I will be teaching material with the certification exam and Mentoring Class exam in mind. Although completing my review class does not guarantee you a passing grade in your exam it will give you a much better chance.

Can you administer The Practitioner Certification Exam?

Sorry... I am not yet authorized to give you the test, which costs \$179 and can only be given by full Instructors and Associate Instructors of The Reconnection®

Does the Review Class count for my pre-Mentoring Class requirement for individual Mentoring?

It depends. If you take my class within 3 months of the start of your Mentoring Class attendance and you complete the class with the appropriate level of Mastery, I will check you off. If your performance calls for additional work or if your Reconnection has not been reviewed recently you may need an individual session.

What is the difference between an individual Mentoring and a Practice Review?

When you engage me for an individual mentoring, you get to drive the agenda and I will make sure that critical things are examined but it is your money and your goals being met. The Practice Reviews and both the Pre-Certification Exam and Pre-Mentoring class mentoring sessions are a set curriculum with participant Q&A, with the specific intention of insuring mastery, ultimately subject to an examination.
